With regards to the lady from Yerushlayim being accused of mistreating her child;

What we have to strongly protest here, in a peaceful manner, are the barbaric actions of the police force in arresting a women who is allegedly sick according to their claims, and chaining her, putting her in a cell with dangerous criminals. If their allegations are true, then this women deserves the appropriate medical treatment, but not to sit in a prison cell, with such subhuman treatment.

We condemn any types of violence, I have stressed this many times before. Anyone who commits acts of violence declares that he doesn't belong to our community. Any talk of boycotting the hospital is against the Halacha and "very self-damaging." We have nothing against the Hadassa hospital, and many in our community receive their services in the Hadassa hospital with great care.
